

WORKING TOGETHER

A DIALOGUE FOR ABORIGINAL AND NON-ABORIGINAL RESEARCH PARTNERS

HOSTS:

- “ CIHR Aboriginal HIV & AIDS Community-Based Research Collaborative Centre
- “ CIHR CBR Collaborative: A Program of REACH

DESCRIPTION:

The CIHR CBR Collaborative: A Program of REACH and the CIHR AHA Centre invite you to join a conversation about the ‘essential ingredients’ for successful and respectful cross-cultural community-based research (CBR) partnerships. This session will highlight how two national CBR Centres advance HIV research together, and will feature a keynote address by Cathy Worthington on the promises and tensions of collaborating across cultures. A panel of Aboriginal and allied researchers will reflect on their involvement in projects where Aboriginal and non-Aboriginal peoples have come together with a common goal: to address HIV in our communities. Facilitators will support rich discussion among participants and presenters.

PEOPLE:

- Elders**
